**Pange tähele, et see tegevus rakendub ainult ülalkirjeldatud toodete spetsiifilistele tootekoodidele ja partiinumbritele.**

<b>PROBLEEMI KIRJELDUS</b>	<p>ConvaTec on vabatahtlikult algatanud korrigeeriva ohutustegevuse klientide teavitamise vormis, mis puudutab ülalmainitud ostoomiatoodete spetsiifilisi tootekoode ja partiisid.</p> <p>ConvaTec on läbi vaadanud kaebused seoses kumerate kaheosaliste nahabarjääridega, mis on toodetud vahemikus veebruarist 2017 kuni septembrini 2018 ja kus esmane ava (stoomi ava) on keskmest väljas. Täpsemalt on üle kogu maailma esinenud kolm juhtumit, kus keskmest väljas kumera kaheosalise nahabarjääri kasutamine põhjustas stoomi sisselõikumise. Need sisselõiked ei vajanud haiglaravi ning lõppkasutaja suutis probleemi lahendada. Üldine vigastusrisk on madal. Ent kuna seda riski on võimalik visuaalselt tuvastada, võtame ennetava meetme, teavitades probleemist kliente, et lõppkasutaja saaks toodet põhjalikult kontrollida ja veenduda, et see a) on toodetud nimetatud perioodil ja b) on visuaalselt keskmest väljas.</p>

### Kiire Meditsiiniseadme ohutusteatis

Lugupeetud ostoomiatoote kasutaja!

Kirjutame teile selleks, et teavitada teid visuaalselt tuvastatavast probleemist, mis mõjutab kumeraid kaheosalisi nahabarjääre, mis on toodetud vahemikus veebruarist 2017 kuni septembrini 2018 ja millel esmane auk (stoomi ava) on keskmest väljas. (Mõjutatud toodete nimekirja vt selle kirja lisast A.) Vigastusrisk on madal ning piirdub spetsiifiliste partiidega, mis toodeti kindlas, nüüdseks möödunud ajavahemikus. See probleem ei puuduta kõiki neisse partiidesse kuuluvaid kaste. Ent kuna seda riski on võimalik visuaalselt tuvastada, võtame ennetava meetme, teavitades teid probleemist, et saaksite oma toodet põhjalikult kontrollida ja vaadata, kas:

- see toodeti nimetatud perioodil ning
- kas see on nähtavalt keskmest väljas.

Meie andmetel olete teie võinud sellise toote saada. Pildid näidetega on esitatud allpool:

Saadame teile selle teate teie teavitamiseks ning esitame meetmed keskmest väljas toote tuvastamiseks kasutuskohas.

- Palun vaadake oma olemasolevad tooted üle. Kui teil on mõni toode, mis meenutab **vasakpoolisel joonisel 1** kujutatud toodet, siis pange mõjutatud toode teistest kõrvale ja võtke mõnel alltoodud numbritest ühendust ConvaTeci

klienditeenindusega, et leppida kokku mõjutatud toote tagastamises ja asendamises.

- Kui te ei ole kindel, siis võtke abi saamiseks ühendust ConvaTeci klienditeenindusega.

ConvaTeci klienditeeninduses töötavad hästi väljaõppinud tootespetsialistid ja meditsiiniõed, kes annavad teile abi ja teavet, mida te ostoomipatsiendina vajate.

ConvaTeci eesmärk on pakkuda kõrgeima kvaliteediga tooteid ja teenuseid igale kliendile. Meie eesmärk on valmistada tooteid, mis tagavad mugavuse, enesekindluse ja turvatunde. Kinnitame, et oleme tootmisliini probleemidega tegelenud ja turgudele on jaotatud parandatud toode.
